Soft Sitness Art

Fit and healthy while sitting – with the Soft Sitness® Technologie by Topstar.

Everyone spends over 10 hours per day in a seated position. So that's a lot of time which you simply shouldn't spend on low quality chairs - that could lead to incorrect posture and back pain.

The unique Soft Sitness® technology in the Soft Sitness Art ensures a three-dimensional sitting and keeps you moving while seated. The freedom of movement in every direction guarantees more active sitting. This allows you to unconsciously train your back muscles and thus prevent back pain.

The Advantages of Soft Sitness®?

- + Exercises your back and spinal column
- + Takes pressure off the intervertebral discs
- + Guarantees freedom of movement
- + Stimulates blood circulation
- + Improves concentration
- + Increases motivation and commitment

Soft Sitness®

Two springy clasps under the seat create a softly swinging movement, which is achieved by pre-tensioning the user's own body weight to move forwards, backwards and sideways.

Soft Sitness Art

Soft Sitness Art

Freedom of movement redefined – **sustainable and innovative.**

The Soft Sitness Art revolutionises sitting with a completely new dynamic movement.

Instead of conventional axles or springs, the flexibility of the material ensures movement. Our engineers have reinterpreted the synchronised mechanism: Two springy clasps under the seat surface enable a gently swinging movement that moves the body in all directions – forwards, backwards and sideways – thanks to its own weight. The principle of Soft Sitness® technology achieves a real milestone with minimal use of materials.

Produced in Germany, in close co-operation with regional suppliers around the Topstar GmbH production plant.

Awarded with the AGR seal of quality

In a world where exercise and health in the workplace are becoming increasingly important, there is exciting news: Eight of our products have been tested by the AGR and awarded with the „Tested & Recommended“ seal of approval!

But who is the AGR actually? Aktion Gesunder Rücken (AGR) e. V. is an independent organisation with the aim of promoting back health. To this end, the AGR has developed the „Tested & Recommended“ seal of approval as a decision-making aid for consumers. Only products that are categorised as „back-friendly“ are awarded with this seal. For this assessment, an independent test commission consisting of doctors and therapists from various specialisms comes together and subjects a wide variety of products to strict test criteria.

With our AGR-certified models, you can create the most important component of a healthy working environment. Our unique Sitness® technology ensures three-dimensional sitting. The freedom of movement in every direction ensures more active sitting, which unconsciously trains the back muscles and prevents back pain.

In recognition for manufacturing
back-friendly products, this certificate
is awarded to

TOPSTAR GmbH

Augsburger Straße 29 | D - 86863 Langenneufnach
