Sitness Salzburg 8.0

Fit and healthy while sitting – with Sitness® Technology by Topstar.

Everyone spends over 10 hours per day in a seated position. So that's a lot of time which you simply shouldn't spend on low quality chairs – that could lead to incorrect posture and back pain.

The unique Sitness® technology in our chairs ensures a three-dimensional sitting and keeps you moving while seated. The freedom of movement in every direction guarantees more active sitting. This allows you to unconsciously train your back muscles and thus prevent back pain.

The Advantages of Sitness® ?

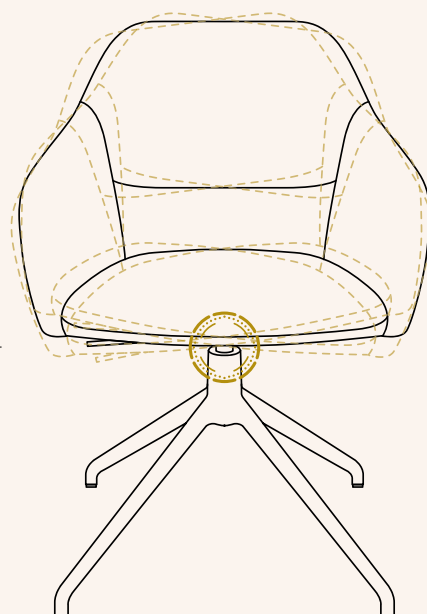

- + Exercises your back and spinal column
- + Takes pressure off the intervertebral discs
- + Guarantees freedom of movement
- + Stimulates blood circulation
- + Improves concentration
- + Increases motivation and commitment

Sitness®

Our unique Sitness® technology separates the rigid connection between the lower part of the chair and the seat and creates a dynamic connection.

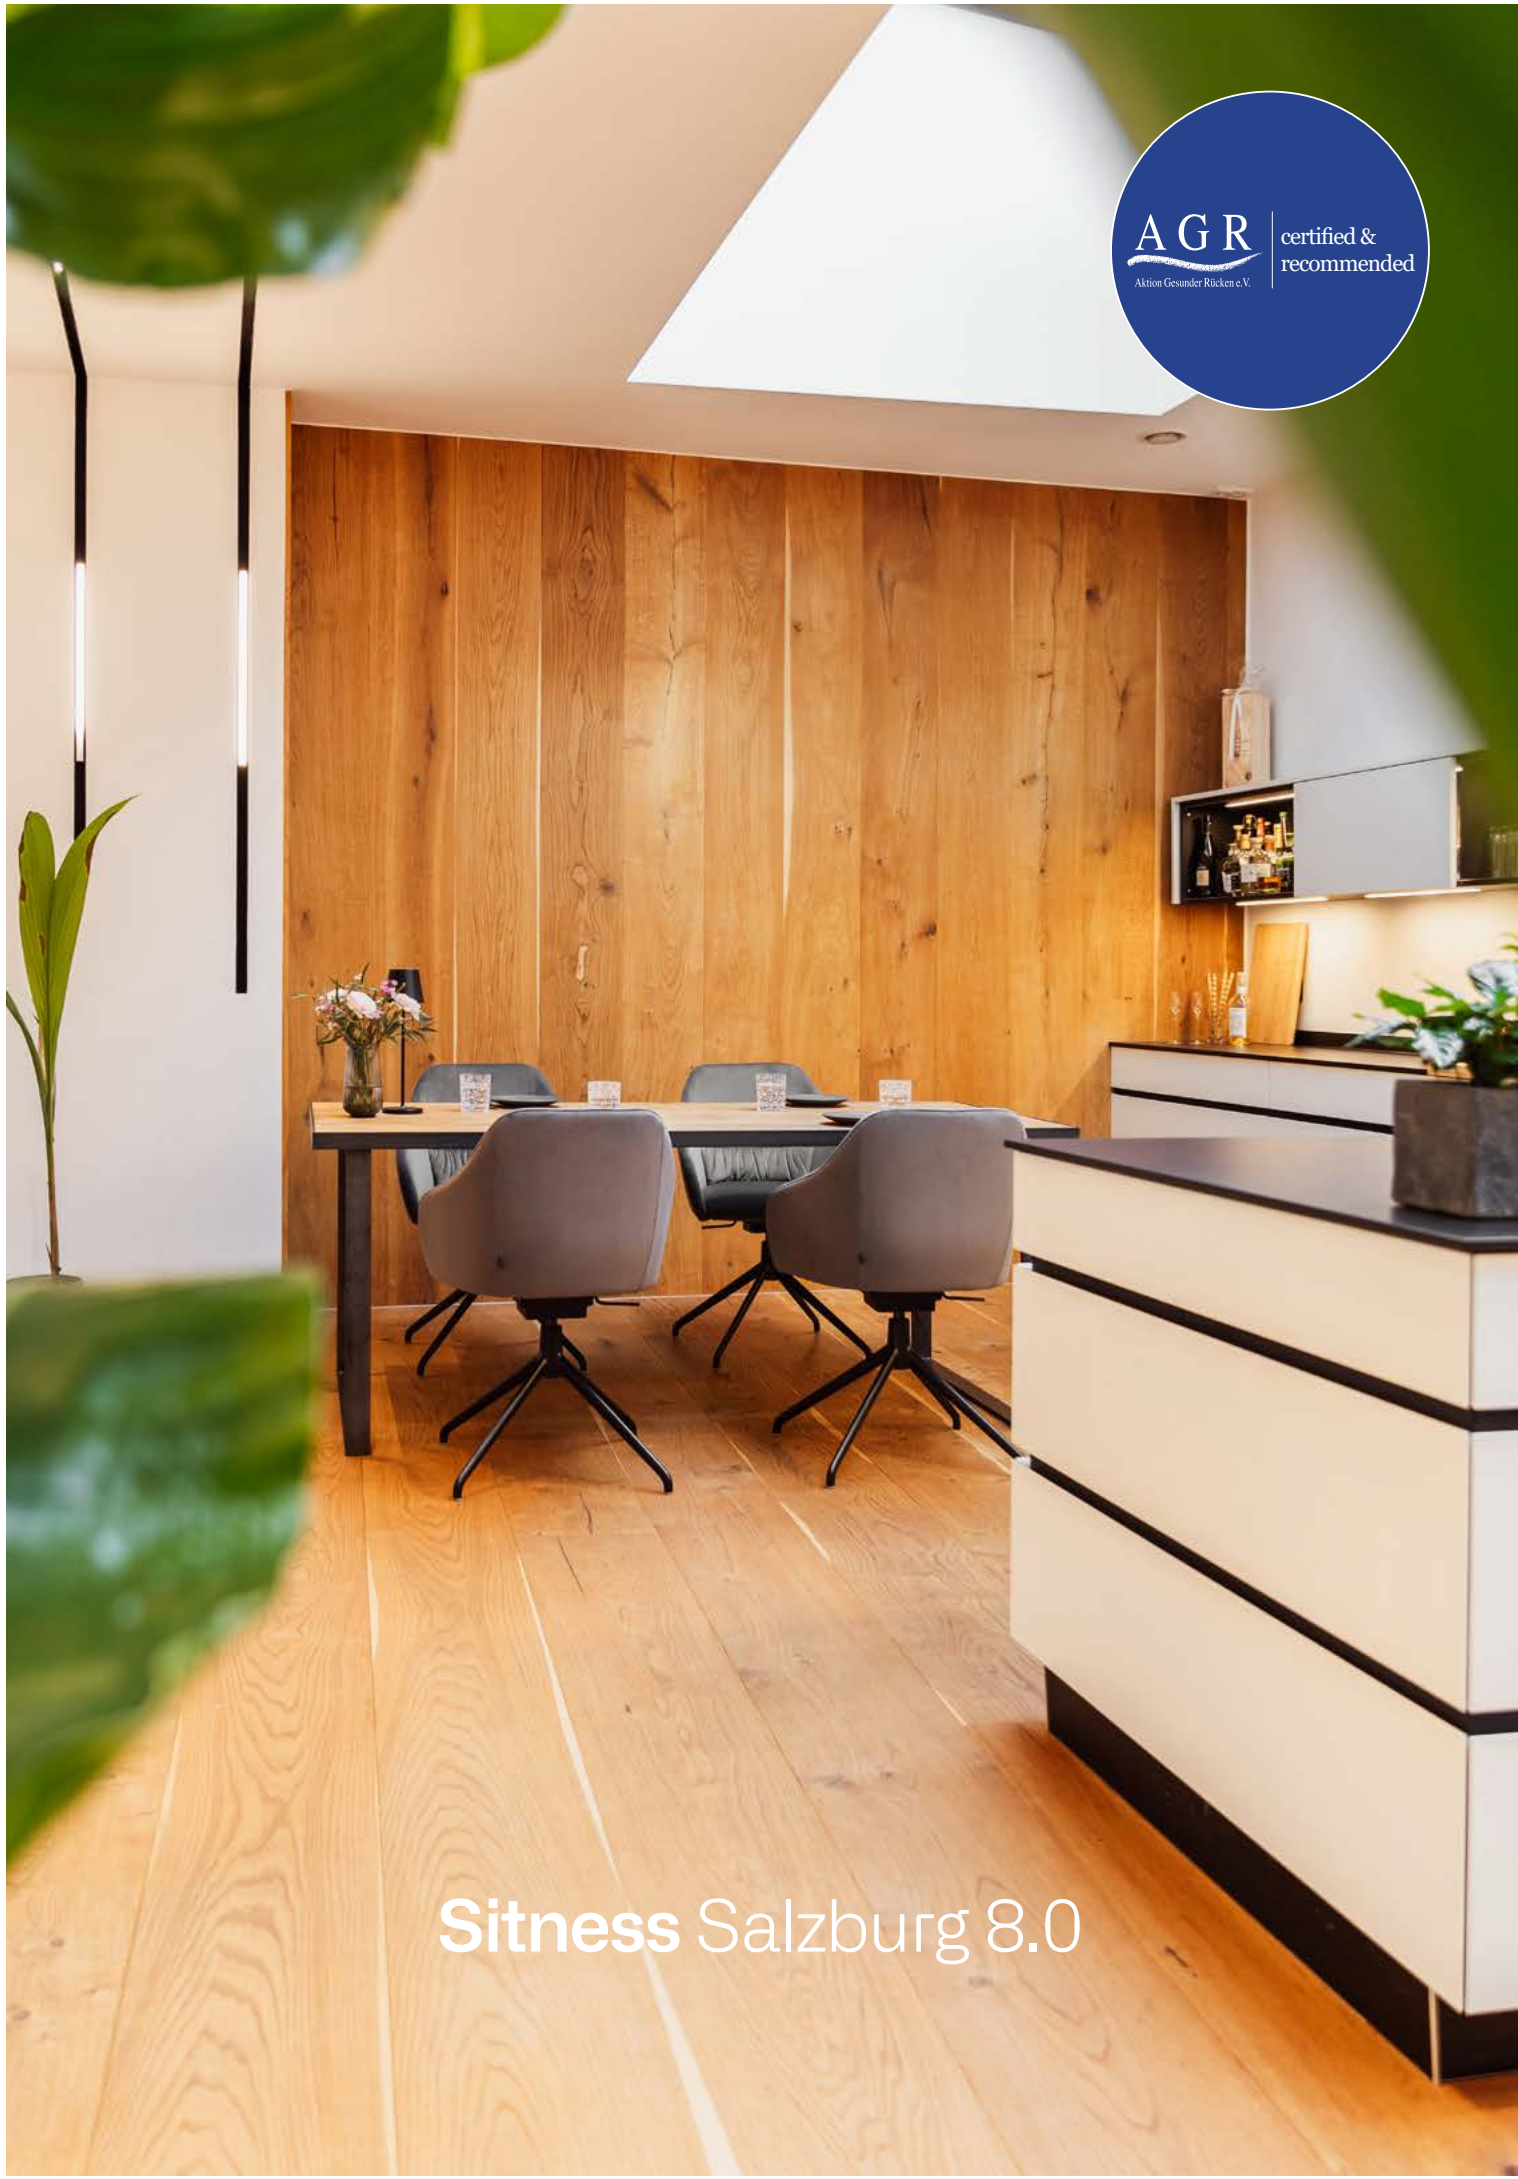

Sitness Salzburg 8.0

Moving and unique.

The Sitness Salzburg 8.0 sets standards in terms of comfort. The dynamic, organic seat shape combined with an appealing feel creates a secure, cozy and comfortable sitting experience. A chair for every taste, with a variety of customization options thanks to different upholstery fabrics and bases.

Awarded with the AGR seal of quality

In a world where exercise and health in the workplace are becoming increasingly important, there is some good news: selected products have been tested by the AGR and awarded the 'Tested & Recommended' seal of approval.

But who is the AGR actually? Aktion Gesunder Rücken (AGR) e. V. is an independent organisation with the aim of promoting back health. To this end, the AGR has developed the „Tested & Recommended“ seal of approval as a decision-making aid for consumers. Only products that are categorised as „back-friendly“ are awarded with this seal. For this assessment, an independent test commission consisting of doctors and therapists from various specialisms comes together and subjects a wide variety of products to strict test criteria.

With our AGR-certified models, you can create the most important component of a healthy working environment. Our unique Sitness® technology ensures three-dimensional sitting. The freedom of movement in every direction ensures more active sitting, which unconsciously trains the back muscles and prevents back pain.

In recognition for manufacturing
back-friendly products, this certificate
is awarded to
