Sitness AirWay

Fit and healthy while sitting – with Sitness® Technology by Topstar.

Everyone spends over 10 hours per day in a seated position. So that's a lot of time which you simply shouldn't spend on low quality chairs – that could lead to incorrect posture and back pain.

The unique Sitness® technology in our chairs ensures a three-dimensional sitting and keeps you moving while seated. The freedom of movement in every direction guarantees more active sitting. This allows you to unconsciously train your back muscles and thus prevent back pain.

The Advantages of Sitness® ?

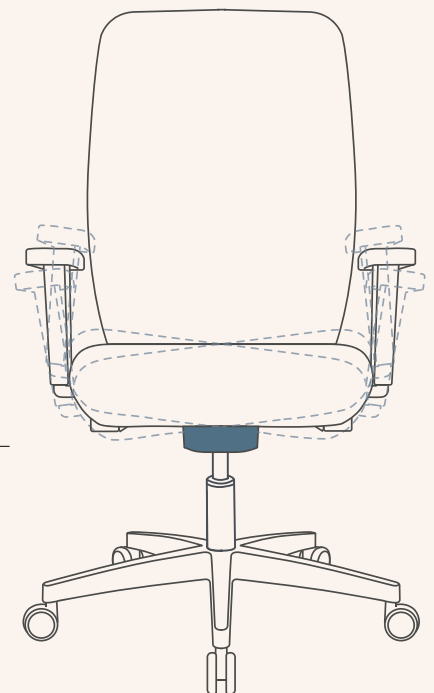

- + Exercises your back and spinal column
- + Takes pressure off the intervertebral discs
- + Guarantees freedom of movement
- + Stimulates blood circulation
- + Improves concentration
- + Increases motivation and commitment

Sitness®

Our unique Sitness® technology separates the rigid connection between the lower part of the chair and the seat and creates a dynamic connection.

Just move!

Sitness AirWay

Make it your way – make it yours!

Modern in form. Dynamic in function.
Personalised down to the last detail.

The Sitness AirWay represents a new generation of active seating: aesthetically pleasing, precisely engineered and consistently designed for movement. Its integrated 3D movement promotes dynamic sitting in everyday life and is AGR-certified – for proven ergonomics that make a tangible difference.

Thanks to maximum customisation, every Sitness AirWay becomes your personal statement: colours, materials and features can be flexibly configured – Build it your way.

This makes it a piece of seating that adapts to your style and your body – for greater freedom, greater comfort and movement that truly suits you.

Technical excellence meets modern design.
For everyone who doesn't just sit, but
keeps moving.

with headrest:	AI40WO2_ =
Hard floor castors:	6990
Glides:	6990-2

Fabric and colour combinations:

Mesh back /
Upholstered seat

Sitness AirWay

Awarded with the **AGR seal of quality**

In a world where exercise and health in the workplace are becoming increasingly important, there is exciting news: Nine of our products have been tested by the AGR and awarded with the „Tested & Recommended“ seal of approval!

But who is the AGR actually? Aktion Gesunder Rücken (AGR) e. V. is an independent organisation with the aim of promoting back health. To this end, the AGR has developed the „Tested & Recommended“ seal of approval as a decision-making aid for consumers. Only products that are categorised as „back-friendly“ are awarded with this seal. For this assessment, an independent test commission consisting of doctors and therapists from various specialisms comes together and subjects a wide variety of products to strict test criteria.

With our AGR-certified models, you can create the most important component of a healthy working environment. Our unique Sitness® technology ensures three-dimensional sitting. The freedom of movement in every direction ensures more active sitting, which unconsciously trains the back muscles and prevents back pain.
