Patented seat/standing aid for active dynamic sitting or standing

FEATURE

Newly developed standing aid for raised workspaces, z. e. g. as a supplement to height adjustable tables

FEATURE

Versatile use in office, workshop, kitchen, household etc.

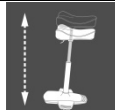

Patented aluminium base, black coated with „tilting edge“ for an upright or inclined sitting position

Standing aid allows movements forwards, backwards and sideways, for movable sitting

Ergonomically shaped "saddle seat" for any desired and comfortable sitting position

Seat height adjustable in various positions (release lever under the seat)

FEATURE

Black lacquered gas spring with "clean effect", which cleans itself by a wiper mechanism and is therefore oil film free

This product has the GS-sign of Intertek in Fuerth and complies in this relation to all security requirements

Max. user height 1,92 m | Max. user weight 110 kg | Max. using time / day 4 hours
